

Visitors with an interest in fishing have been considered by VisitScotland in the development of the Anglers Welcome Scheme which recognises the special efforts made by businesses to provide for anglers, and to help them choose suitable accommodation.

## ANGLERS WELCOME SCHEME

Salmon, cod, carp, perch, sea-trout, rainbow trout, wild brown trout, skate and sea bass – to name but a few of the types of fishing available in Scotland. It's every angler's dream come true and one made all the better by the great Scottish scenery and warm hospitality.

For centuries anglers have been coming to Scotland to fish and no matter where you start in the country, there is something to interest each and every one. We need to ensure that the hospitality encountered by our visiting anglers meets, or preferably exceeds, their expectations.

Visitors who enjoy fishing have specific needs and it makes a positive difference to their experience if these needs are recognised and catered for. They appreciate having storage boxes for rods; a daily weather forecast; freezer facility for bait or catch; facilities for gutting or preparing catch, or facilities for washing fishing tackle. Equally important is the local knowledge of where to fish. Those wishing to apply for the Anglers Welcome Scheme should display a positive attitude towards anglers and a genuine desire to meet and anticipate their needs.

To become a member you must provide the following and your VisitScotland Quality and Tourism Advisor will verify what the required facilities exist when they visit or for non Quality Assured customers a representative from VisitScotland will arrange to come along and verify.

## ANGLERS WELCOME SCHEME FOR CARAVAN AND CAMPING PARKS

1. A separate space should be available for drying outdoor clothing and footwear at an ambient temperature of approx. 30°C, so clothes can dry overnight. Dehumidifier can be used.
